PROFESSIONAL SUMMARY

ISTQB Certified QA Automation Engineer with 10+ years of experience specialising in Playwright-based E2E automation, API testing, and CI/CD pipeline integration. Proven track record of building automation frameworks from scratch, achieving 100% API test coverage, and reducing regression cycles by up to 60%. Experienced Lead QA Engineer across fintech, IoT, and enterprise platforms. Currently based in Essen, Germany with valid work visa.

CORE SKILLS

Test Automation:	Playwright (Primary), Cypress, Selenium, Appium
Languages:	TypeScript / JavaScript, Java, Python, SQL
API Automation:	Playwright API, REST Assured, Postman, Newman
Performance:	Grafana K6
CI/CD & DevOps:	GitHub Actions, Jenkins, GitLab CI, Azure DevOps
AI-Assisted Testing:	Claude, Agent + LLM, Testim, Testrigor, BrowserStack
Frameworks:	TestNG, JUnit, POM
Test Management:	Jira, Qase, Zephyr, Xray, TestRail
Reporting:	Allure, Extent Reports, TestNG Reports

PROFESSIONAL EXPERIENCE

Lead QA Engineer – AD Group Pty Ltd, Australia (Remote)

Aug 2024 – Present

- Built Playwright-based API & web automation framework; reduced manual regression by ~50%
- Strengthened pre-release defect detection across multiple product lines
- Introduced Grafana K6 performance testing to improve system stability
- Optimised defect lifecycle and resolution turnaround
- Built and mentored QA team; defined QA standards and best practices

Lead QA Engineer – ABG Technologies Ltd, Dhaka

Mar 2023 – Aug 2024

- Led QA for microservices-based fintech (PSP eWallet) platform
- Achieved 100% API test coverage across 8+ microservices using Playwright & REST Assured
- Implemented load & stress testing with Grafana K6; reduced regression cycle by 60%
- Built and scaled QA team to support full fintech ecosystem

Senior QA Engineer – SuperTal Ltd SG (Remote) & SetSchedule USA (Remote)

Nov 2021 – Nov 2022

- Designed and maintained Playwright & Selenium API/web automation frameworks
- Automated 70% of regression suite; reduced execution time by 50%
- Managed end-to-end QA lifecycle and release validation

Senior QA Engineer – ME SOLshare Ltd., Dhaka

Sep 2020 – Aug 2021

- Led QA for IoT-based solar energy distribution platform (SOLclock & SOLGrid apps)
- Developed automation and manual test strategy; managed QA team and release quality

Senior QA Engineer – BJIT Ltd., Dhaka

Oct 2018 – Aug 2020

- Designed automation test suites for Dassault CATIA v6 (3DEXPERIENCE PLM) and Siemens PLM
- Prepared test plans, reports, and UAT coordination; integration and regression testing

QA Engineer – W3 Engineers Ltd., Dhaka

Dec 2016 – Sep 2018

- Automated Android regression suite; managed full defect lifecycle and release validation

Jr. Engineer (SQA) – Samsung R&D; Institute BD, Dhaka

Jul 2011 – May 2015

- System validation, UAT, exploratory and regression testing for Tizen OS across large-scale release cycles
- Android OS (One UI) regression testing, retesting, and UAT for Samsung Smart Phones
- Managed defect lifecycle for OS-level features; part of 20+ member QA team

EDUCATION

B.Sc in Electrical & Electronic Engineering

University of Information Technology & Science, Dhaka | 2011 – 2016

Certification: ISTQB Certified Tester

NOTABLE PROJECTS

Tizen OS & Android OS (One UI) — Samsung R&D; Institute BD

Mobile OS | Samsung Electronics

OS-level QA across two major mobile platforms. Contributed system validation, UAT, exploratory and regression testing for Tizen OS release cycles. Performed Android OS (One UI) regression, retesting and UAT for Samsung Smart Phones within a 20+ member international QA team.

POCKET eWallet (PSP) — ABG Technologies Ltd

Fintech | iOS & Android | google.play / App Store

Microservices-based digital wallet covering money transfers, bill payments and mobile recharges. Built full QA infrastructure using Playwright & REST Assured; achieved 100% API coverage across 8+ services and reduced regression time by 60% with Grafana K6 load testing.

Showcase.space — AD Group Pty Ltd

PropTech | Web | showcase.space

Immersive digital display suite with LED walls, 3D building visualisation and virtual walkthroughs for property developers. Designed Playwright-based API & web automation framework; executed E2E validation of 3D presentation workflows and performance validation for client releases.

Dassault CATIA v6 (3DEXPERIENCE) & Siemens PLM — BJIT Ltd

Enterprise | 3D CAD / PLM

Enterprise-grade 3D product lifecycle management platforms. Performed integration, system and UAT testing for complex enterprise modules; prepared structured test plans and validated cross-functional engineering workflows at scale.

Tizen Studio IDE — Samsung R&D; Institute BD

Developer Tools | developer.tizen.org

Comprehensive development environment for Tizen native and web applications. Contributed to QA validation of IDE features and toolchain stability across device builds.
